TIGERS

Read the passage given below and answer the following questions in complete sentence.

The tiger is the largest member of the cat family. Tiger is also India's national animal. They are wild animal. They are admired by people for its strength and beauty and also feared because tigers have been known to kill and eat humans. Some tigers are brownish-red in colour with black strips which allows them to hide in their environment. The fur on their throat, belly and insides of the legs is whitish. White tigers have white fur with black or

dark brown stripes. They also have blue eyes. White tigers are rare.

They can travel long distances. Tigers hunt by sight and sound. They are carnivorous animal because they have been known to eat large animals like deer, antelopes, wild pigs, etc. Some tigers like to eat small prey like monkeys, tortoises and frogs. They hunt at night, using their sense of smell.

Tigers live in a jungle with many trees. But, people are cutting down the trees. Tigers cannot live in a place where trees have disappeared. We should not destroy their home. It is estimated that 5,100 to 7,500 now remains in this entire world. People have also hunted tigers for hundreds of years. Human are the biggest threat to the declining tiger population. We must protect our national animal.
